## Heparin Sodium Injection, USP 1 000 USP units/mL MD Vial 1 mL Backorder Notification & Code Change

Dear Valued Customer,

Fresenius Kabi Canada regrets to advise that due to a production delay, we will be encountering a supply interruption on our **Heparin Sodium Injection, USP 1 000 USP units/mL MD Vial 1 mL** effective **November 30, 2021 until December 6, 2021**. Our available inventory is short-dated with 1 month dating. The current available inventory expires November 30, 2021.

DIN	Fresenius Kabi Product Code	MDP Product Code	Product Description	Estimated Stockout Date	Estimated Availability Date
02264315	C504701	936261	<b>Heparin Sodium Injection, USP 1 000 USP units/mL MD Vial 1 mL</b>	Nov. 30, 2021*	Dec. 6, 2021

\*Please note that the stockout date may vary by region, please check your local distribution centre for availability.

Effective December 6, 2021, our **Heparin Sodium Injection, USP 1,000 USP units/mL MD Vial 1 mL** code (C504701) will be replaced with a new product code. The following changes have been implemented:

- **Product code:** The new product code is outlined in the table below.
- **Latex content:** The new product code contains a **latex-free stopper**
- **Vial:** There has been slight changes to the vial size
- **Labelling:** The tray and vial labels have been updated to include the new Fresenius Kabi Canada brand design and Plain Language Labelling (PLL) requirements. A more detailed look at the current verses "new" labelling can be found on the following page.

There has been no change to the formulation and all formats are **not free** from preservatives.
