## Adenosine Injection Allocation Notice

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that our **Adenosine Injection 3 mg/mL SD Vial 2 mL**, **Adenosine Injection 3 mg/mL prefilled syringe 2 mL**, and **Adenosine Injection 3 mg/mL prefilled syringe 4 mL** will be placed on a protective allocation **effective immediately**. Contract customers are allocated **100% of historical monthly demand**.

Please note allocations for the remainder of June 2023 are reflective of 100% historical monthly demand minus volumes already purchased for the month. Beginning July 2023, allocations will be reset to a full month's quantity.

**In addition to these allocations, a limited amount of Adenosine will be made available to support the Dipyridamole shortage. We will be working closely with Group Purchasing Organizations (GPOs), local health authorities, and/or provinces to distribute the limited quantities. More information will be made available shortly.**
