**IMPORTANT CUSTOMER INFORMATION**

**Midazolam Added to Controlled-Distribution Program**

In August 2012, Fresenius Kabi USA, LLC (formerly, APP Pharmaceuticals, LLC) ("Fresenius Kabi") implemented a controlled-distribution program for all forms of Propofol products manufactured and sold by Fresenius Kabi. Under the controlled-distribution program, Propofol products are available for purchase by a limited number of wholesalers and distributors specifically authorized by Fresenius Kabi to distribute the products to end-user customers.

To address similar market conditions now impacting Midazolam, Fresenius Kabi has added all Midazolam products to the controlled-distribution program. Accordingly, effective immediately, Fresenius Kabi Midazolam products are available only through our authorized wholesalers and distributors. These wholesalers and distributors have agreed to resell Midazolam only to acute care hospitals, clinics and other health care facilities where its use is medically necessary within those facilities.

We require our authorized wholesalers and distributors to refuse orders or delivery to correctional facilities, and to exclude delivery to retail pharmacies or other distributors, to reduce the possibility that Fresenius Kabi Midazolam reaches correctional facilities.

We appreciate your understanding of our need to respond to changing and complex market situations. Please see a list of Fresenius Kabi approved wholesalers and distributors with this letter. If you have any questions regarding the availability of Midazolam, please contact your distributor or Fresenius Kabi customer service at 888-386-1300.

Fresenius Kabi USA, LLC
