**Bivalirudin for Injection 250 mg/vial and
Vancomycin Hydrochloride for Injection 1 g
Product Code Changes**

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that we will be changing the product code and packaging components of our **Bivalirudin for Injection 250 mg/vial SD Vial 10 mL** and **Vancomycin Hydrochloride for Injection, USP 1 g SD Vial 20 mL**.

- **Product code:** The new product codes are outlined in the table below.
- **Latex content:** The new product codes contain a **latex-free stopper**.

There has been no change to the formulation and the products remain **preservative-free**.

DIN	Product Description	Current Product Code	NEW Product Code	NEW McKesson Code	NEW MDP Code	NEW UPC Codes	Availability Date
02435268	Bivalirudin for Injection 250 mg/vial SD Vial 10 mL	CP186410	C506210	151509	976453	Vial: 629336004010 Pack: 629336004027	Sept 1, 2021
02139383	Vancomycin Hydrochloride for Injection, USP 1 g SD Vial 20 mL	CP133820	C28420	404541	922912	Vial: 629336284207 Tray: 629336000623	Sept 1, 2021

Please note that there may be some remaining inventory of the existing products still available in the distribution channels. Therefore, customers may receive both the old and new codes for a brief period of time.

If you would like to obtain more information on this product, please contact your hospital representative or our Customer Service Department at (877) 821-7724.

Sincerely,

George Shamsoun
